

The dictionary defines murder as the crime of deliberately killing a person; a person as a human being; a fetus as a HUMAN BEING or an animal in the later stages of development before it is born; and abortion as a medical procedure used to end a pregnancy and cause the death of the fetus. The dictionary itself proves that abortion is murder. So why is murder legal?

Abortion is affecting our nation in more ways than we know. One third of our generation is missing due to abortion. Those people had no chance to be kids, teenagers, or to fall in love and marry. They could have been doctors, great scientists, missionaries for Christ, Olympians, or even just a good friend. If you add up all the men who ever died in military service during any war the US has fought in, it would be close to the number of children that die every single year because of abortion. On that fatal day in September, when the World Trade Center was hit about 3000 people died. People all over the USA were in shock over this tragedy and mourned for days. Yet EVERY single day 3315 innocent babies die due to abortion in the US alone, and no one even sheds a tear. Imagine if your mom walked up to you with a cup full of poison which can kill you and told you to drink it. You asked her why and all she said was that she doesn't have time to deal with you and that you are too much work. That is what is happening to millions of babies every year, except unlike you they have no voice or way to fight back.

Why are so many mothers choosing to abort their precious children? Six percent chose abortion due to health reasons and only one percent of abortions are because of rape or incest, but a staggering 93% are for social reasons. These women or even teenagers are scared and

don't want to deal with the inconvenience of a baby. They don't think there is another option, but there is! And we have to tell them about them.

We as teenagers have a choice to make a huge impact on generations to come or to just sit at home thinking we can do nothing. We have a great opportunity to help the unborn with God's help. As a teenager, I have been actively involved in raising money for Sheboygan's Anchor of Hope Pregnancy Center. I am currently in charge of a baby bottle drive. This involves organizing teens to speak at local churches and passing out baby bottles for the congregation to fill. I also am a member of Sheboygan County Teens for Life. Because of this group, teens from the Sheboygan area were actively involved in the planning, founding and now the maintaining of a pregnancy center in the city of Sheboygan. We also hold signs in front of Planned Parenthood every month and volunteer at Right to Life functions. Just because we are teenagers doesn't mean we cannot make a difference. With God's help anything is possible. "I can do all things thru Christ who strengthens me"- Philippians 4:13
