

AS PART OF
Wisconsin College Students for **LIFE**,

you can
CHANGE THE WORLD
without leaving campus

- Right-to-Life students often provide the only positive voice a pregnant woman hears on a college campus. A voice of encouragement helping her to know that she doesn't have to abort her child, that there are alternatives.
- Right-to-Life students are in a strategic position to confront their classmates and professors when pro-abortion rhetoric goes unchallenged.
- Right-to-Life students are also on-campus advocates for life, challenging stereotypes and presenting themselves as resources to their friends and classmates.
- As part of Wisconsin College Students for Life, you can inform your peers on the truth regarding the abortion debate.
- You'll have access to the most up to date and expert information so you can stay current with the latest in education and state and federal legislation.
- Getting a group started on your campus is a lot easier than you may think. Best of all, we'll help you every step of the way.

Helping **YOU** speak out
in defense of **LIFE** through...

- On-campus action
- Informational materials
- Right-to-Life speakers
- Legislative awareness
- Education
- Assisting pregnant women

Sponsored by **L!fe** WISCONSIN
RIGHTTOLIFE

OUR MISSION:

To make euthanasia, infanticide, abortion and destruction of human embryos socially, ethically and legally unacceptable solutions to human problems and to promote positive alternatives to each of these acts.

The number of abortions occurring in Wisconsin each year has steadily declined from over 19,000 in 1982 to fewer than 8,300 today!

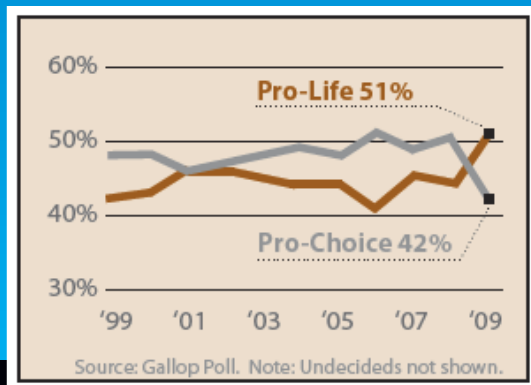

Polls indicate we are winning the CULTURE OF LIFE war!

For the first time, more Americans self-identify with the Right-to-Life position.

A widely reported 2009 Gallup poll found 51% of Americans now call themselves pro-life compared to 44% the previous year.

Conversely, 42% now call themselves pro-choice compared to 50% the previous year.

A Pew Research survey found that most of this strong shift to the Right-to-Life view was among young people ages 18-29.

WHAT WE DO:

- Construct on-campus displays like the Cemetery of the Innocents, symbolizing the more than 50 million babies lost to abortion since the tragic 1973 *Roe v. Wade* decision by the United States Supreme Court
- Host nationally known speakers who bring their passion for life and powerful stories to our events
- Hand out pamphlets with convincing, factual information on right-to-life issues.
- Sponsor and/or participate in campus debates on right-to-life issues
- Help students who are pregnant to be aware of their options and encourage them to make life affirming decisions
- Work to inform and educate the student body about current legislative issues

WHAT WE OFFER:

STUDENT GRANTS

You could earn a \$1,500 student grant by organizing projects and events that raise Right-to-Life issue awareness on your university or college campus.

Each fall grants are awarded to students attending various Wisconsin colleges and universities.

Right-to-Life training and materials are provided by Wisconsin Right to Life.
