Wisconsin Right to Life Applauds a 7% Wisconsin Abortion Decrease

Wisconsin Continues its Stunning Abortion Decline

"Today is a fantastic news day for Wisconsin women and children," claimed Heather Weinger, Executive Director of Wisconsin Right to Life.

"Our steep abortion decline continues with the release of 2013 abortion numbers which reveal there were 465 fewer abortions in 2013 than in 2012. This represents a 6.7% decrease in one year."

The newly-released Department of Health Services Reported Induced Abortions in Wisconsin report shows there were 6,927 abortions performed in 2012 and 6,462 in 2013. Some significant statistics from the report are:

89 abortions were performed after the fifth month of pregnancy

The number of abortions performed on unmarried women climbed to 88.7%

24% of abortions were obtained by African-American women

9% of abortions were obtained by Hispanic women

18% of abortions were chemical

"We are extremely grateful for each and every woman who gives life to her child, and each unborn child saved from the violence of abortion," continued Weinger. "Wisconsin Right to Life will vigorously continue its multi-faceted programs which work to fuel the decline."
